## Kentucky Work Ready Communities

Dear Community Leader:

Thank you for your interest in the Kentucky Work Ready Communities In Progress certification. As part of Kentucky's overall strategic plan to transform the workforce development system, the state created this framework whereby communities can agree to meet certain educational, workforce development and collaboration goals in order to earn "Work Ready Community In Progress" certification. By taking part in the effort, you will have the opportunity to transform your community's economy and gain a competitive advantage in attracting new businesses and jobs.

In order to qualify, communities must meet or create plans to meet certain thresholds in criteria such as graduation rates, National Career Readiness Certificate holders and educational attainment rates. In addition, communities are required to bring various key agencies and employers together in the process. The process is designed to align education, workforce and economic development strategies for the state and within communities by using a collaborative approach.

The enclosed materials will help you communicate your intent to participate and act as your official application for *Work Ready Community in Progress* status. After achieving this status, you will have up to three years to reach the thresholds and apply for *Work Ready Community* status.

The application packet includes the following documents:

1. Frequently Asked Questions (FAQ) - about the Work Ready Community program,
2. Letter of Intent - required to be submitted at least 30 days prior to the application,
3. Application Checklist - a list of steps to take in preparing your application, information sources and what to expect after your application has been submitted,
4. Work Ready Community In Progress Criteria and Thresholds - a list of requirements that must be met in order to become a Work Ready Community In Progress,
5. Application Form - the basic application information including measurable criteria and a listing of program participants and endorsees,
6. Plan Narrative Forms - instructions for completing plans that are required for some criteria, and
7. Letter of Commitment - a sample commitment letter for use with partner agencies, employers, etc.

As you will see, the certification requirements are designed to be challenging but not impossible to meet.

We hope that all counties will put serious consideration into applying. If you have questions about the program or process, we would prefer they be submitted via email. Please feel free to submit questions via the email link on the program's web site: <http://kwib.ky.gov/workreadycommunity.htm>.

## COMMON QUESTIONS ABOUT THE PROGRAM

1. **Does being a certified Work Ready Community help us?** Absolutely! Employers and potential employers who may consider your community as a location want to know about your workforce. Being certified answers many of their questions and indicates that your community is serious about meeting their needs.
2. **How were the criteria and thresholds selected?** The Kentucky Work Ready Community Steering Committee, which consists of representatives from all major stakeholders in the project (including employers, education, workforce development, economic development, and more) worked to define the criteria initially. Further guidance was received by business and industry - their input drove the final selections.
3. **Can multiple counties make a Work Ready Region?** YES - While Work Ready Regions are not officially a part of this program currently, as long as the counties each meet the Work Ready Community criteria individually and become certified, contiguous counties within Kentucky can promote themselves as a Work Ready Region.
4. **Can any unit smaller than a county apply (such as a city or region not defined by county lines)?** NO - the smallest unit allowed to apply is a county. The reason for this has to do with how data is gathered and tracked. Standardized data for the criteria included are generally tracked at a county level.
5. **Our community does not meet the minimum criteria yet - can we still apply?** YES - In order for the program to have real value for business and industry, the criteria are intentionally stringent. In fact, we expect only a handful of counties to meet the criteria and immediately achieve Work Ready Community status. Most communities will apply for Work Ready Community in Progress - with detailed plans to meet the criteria where they fall short.
6. **How long will we have to meet the criteria if we become a Work Ready Community in Progress?** You will have up to three years to meet the minimum criteria. You will need to show continuous improvement within this three-year period.
7. **What if a Work Ready Community in Progress does not meet their goals in three years - can we reapply?** If you can demonstrate continuous improvement, the selection committee may decide to extend your goal deadline. If the committee does NOT extend your deadline and you lose Work Ready Community in Progress status, you must wait one year before reapplying.
8. **If our community meets the criteria and becomes a Work Ready Community, how long will that status last?** Work Ready Community Status will last for two years, at which time each community must be recertified to ensure they have not fallen below required criteria levels. The recertification process will be a shorter process than the original application and should be fairly easy as long as the local committee stays actively involved.
9. **Is there a cost?** NO - there is no application fee.

## Kentucky Work Ready Communities In Progress

10. **What is the process after we submit our application?** First, the Work Ready Community Review Panel will review the data to verify accuracy. Then the panel will review the narratives included. Based on this information, the committee will make a recommendation to the Kentucky Workforce Investment Board (KWIB), which will have final approval on granting Work Ready Community or Work Ready Community in Progress status. The process will vary in length depending on the timing of the application in relation to the next KWIB meeting. You will be notified of the outcome by the review panel.
  
11. **When can we apply?** You can apply at any time, though applications will be reviewed three times per year. The review panel will meet three times per year to review applications that have been submitted at least 30 days before the review panel meeting. Once established, the meeting dates, times and locations of review panel meetings will be posted on the program's web site.

## Letter of Intent to Participate

As part of Kentucky's overall strategic plan to transform the workforce development system, the Kentucky Workforce Investment Board and its strategic partners created this certification in order for counties to validate the skill level of the workforce. Participating in this effort offers counties the opportunity to transform the local economy and gain a competitive advantage in attracting new businesses and jobs.

In order to qualify, communities must meet certain thresholds in criteria such as graduation rates, National Career Readiness Certificate holders and educational attainment rates. In addition, communities are required to bring various key agencies and employers together in the process. The process is designed to align education, workforce development and economic development strategies for the state and within communities by using for a collaborative approach.

Additional information about the program is available at: <http://kwib.ky.gov/workreadycommunity.htm>.

## CHECKLIST

Congratulations on your decision to apply for the Kentucky Work Ready Community program. This checklist includes recommended and required steps in completing your application.

### ✓ **Organize a Local Application Committee**

This committee will play many important roles in the application process as well as the long-term qualification and requalification process. The committee should include individuals from key stakeholders in the community including employers, local workforce investment boards, economic development representatives, education (secondary and post-secondary), and elected officials.

### ✓ **Complete and submit your Letter of Intent**

You may submit this document at any time, but it must be received at least 30 days prior to submitting an application. This document will assist counties in their organizational efforts and offers an opportunity to request technical assistance in the preparation of the application.

### ✓ **Gather information**

Some of the required criteria are simple data points that can be gathered from official sources. These include high school graduation rate, educational attainment, and broadband access. See the Work Ready Community In Progress Criteria for the official data sources.

### ✓ **Create Plans and Complete the Required Narratives**

Several criteria require narratives to be completed that outline plans to reach established goals within a certain period of time. Each of the required narratives and their details are outlined in the application materials. This step will require collaboration with members of the Local Application Committee.

### ✓ **Gather Letters of Commitment, Meeting Minutes, Attendee Lists and Signatures**

Signatures and letters of commitment are required from community leaders as outlined in the criteria requirements document. Meeting minutes and signed attendee lists from the Application Committee meetings are also required.

### ✓ **Complete the Application Materials and Submit**

You must submit the following items:

- a. the completed application form,
- b. additional high schools included and graduation rate calculations (only if you are including high schools not already in the state reporting graduation rate),
- c. required and optional supporting plans/narratives,
- d. letters of commitment, and
- e. meeting minutes, attendee list and signatures from the application committee meeting(s) - showing representation from all required stakeholders.

Once received, the Work Ready Community Review Panel will process your application, verify data, and review plans. If the committee approves status (either Work Ready Community or Work Ready Community in Progress) it will make a recommendation to the Kentucky Workforce Investment Board, which will have final approval.

Please submit one hard copy and one electronic copy (thumb drive or CD) of all materials via US mail or messenger and one electronic copy of the application page via email to:

### GRADUATION RATE SPECIAL INSTRUCTIONS

The high school graduation rate criteria for Kentucky’s Work Ready Communities program is based on the state’s goal for graduation rates in public schools as specified by administrative regulation.

Recently, the commonwealth began a transition to a new method of calculating these rates, called the Cohort method, which will soon be consistent among all states. The transition uses an interim methodology called the Averaged Freshman Graduation Rate (AFGR), which will be used for three years beginning with data reported this year for 2010 graduation rates. The chart below identifies the methodology required by the new regulations for reporting and the corresponding goals for each year’s results.

Reporting of Kentucky’s Graduation Rate					
Data from School Year “Class of…”	Nonacademic Public Release		Adequate Yearly Progress Determination in NCLB Reports (July/August)		
	Timeline	Graduation Rate Calculation Used	Timeline	Graduation Rate Calculation Used	State Goal Percentage Targets
2008-2009	May 2010	Leaver	Summer 2010	Leaver	86.75*
2009-2010	Fall 2010-Winter 2011	AFGR	Summer 2011	AFGR	82.32**
2010-2011	Fall 2011-Winter 2012	AFGR	Summer 2012	AFGR	To be defined in future regulation
2011-2012	Fall 2012-Winter 2013	AFGR	Summer 2013	AFGR	
2012-2013	Fall 2013-Winter 2014	Cohort	Summer 2014	Cohort	

\*Goal defined in 703 KAR 5:001, Assessment and accountability definitions  
 \*\*Goal defined in 703 KAR 5:060, Interim assessment process

These are the goals that will be used to determine compliance with the Work Ready Communities certification standards.

#### Requirements

A graduation rate for the applicant county must include a combined rate for all public school systems within the county, including all independent districts.

In order to calculate this rate, the raw data for each variable in the Department of Education-specified equation should be a combined total of that variable for all included districts. This data is available from the Kentucky Department of Education.

The goal under the new AFGR method is defined in the document at this link (see section 2 Data Collection.2.f.1):

<http://www.lrc.ky.gov/kar/703/005/060.htm>

#### Achieving the Goal

For the most recent reporting period, a county shall be considered to have met the criteria threshold when the total rate for the county meets one of the following two criteria specified in KAR 5:060, section 2 (f):

## Kentucky Work Ready Communities In Progress

### **GRADUATION RATE SPECIAL INSTRUCTIONS**

1. A graduation rate that is equal to or greater than the annual 2010-2011 reporting goal of 82.32 percent; or
2. A graduation rate that closes the gap between the previous year's graduation rate of a school or district and the graduation rate goal of ninety (90) percent by at least ten (10) percent per year.

NOTE: The criteria for Work Ready Communities is tied to the state goal for graduation, therefore future changes to this regulation will be reflected in the evaluation of this criteria.

#### **Supplementing the Rate**

Counties with private, parochial or other non-public high schools issuing recognized diplomas may add these graduation rates to their public school rates at their discretion.

If included, the non-public school raw data corresponding to the variables on the Department of Education-specified equation must be used to generate the total county rate. Counties supplementing their rate using this method should submit a spreadsheet demonstrating their calculations.
